Membership Application – Private Sector

The Great Lakes Partnership welcomes the involvement of private sector organizations in the work of the partnership as Class C members. Class C members pay dues relative to the size of their business: businesses with fewer than 500 employees pay annual membership dues of \$1,000, while businesses with greater than 499 employees pay annual dues of \$2,500. Representatives of Class C members are eligible to serve on GLP task forces, and may be elected to serve on the board of directors and steering committee. Class C membership will be established in the name of a corporation.

Founding Membership is offered to companies, organizations and institutions that elect to take leadership roles in the Partnership and make an initial contribution (inclusive of first-year dues) of \$10,000.

To activate your membership, please complete this form and return it along with payment to GLP. If you have questions about membership, please contact Helen Gagel at 312-542-0446.

Thank you for your interest in the Great Lakes Partnership.
